Accomplishments
<ul>
<li>
Product Page Anywhere</li>

<ul>
<li>
Got HTML from the UI team.</li>

<li>
Continued working on the Product Page Email front end.</li>
</ul>

<li>
Local Store</li>

<ul>
<li>
Got the list of merchant Franchise Id Codes(FIC) from DCI.</li>

<li>
Got schedule commitment from DCI on adding FIC code to their search
URL. 
They commited to have it ready by 3/28.</li>

<li>
Modified Merchant Comparison module to read local stores information from
a text file, put together using the merchant table from the production
server for Search and the Franchide ID information from DCI.  This
```

will allow us to have the local store functionality in the application,
without having to wait for the Datamart & cache changes to be completed.

Shopping Widget

Worked with Ops on hosting the feed server. Discussed our plans with
key players in MyAOL and MyNetscape that we hadn't talked to before.
Need to do another architecture review with MyAol Ops to make sure they
agree to the deployment plan.

Working on putting together the HTML for the widget to hand over to the
P13n folks.

Issues

None
